Dear Judge:

*www.suny.edu*

Victor Skormin has been a valued professor of Binghamton University for over 20 years. In 2005, he was designated a "Distinguished Service Professor" by the State University of New York, one of the highest honors given in our University System. We would like very much for him to return to his duties as a professor in electrical engineering, for the benefit of his students and his research projects. We ask you to consider his case as promptly as possible.

Yours truly,

Barbara Westbrook Scarlett  
Associate Counsel
